AlgaeCompetition.com

How will growing algae change the world and improve our lives?

The Future of Algae introduces twenty amazing entries from the Competition. Beginning with pond systems and photobioreactors today, this video looks into our future, exploring emerging themes, dreams and schemes in algae architecture and landscape design.

[Algae Competition Announces Finalists](#)

Algae Competition assembled distinguished jurors from diverse backgrounds to evaluate entries in three tracks of the competition: landscape design, production systems and food development. From the many competitive and deserving entries, these entries were selected by our panel of jurors as first round Finalists in the Competition. The second round will select award winners.

[Track 1 ALGAE LANDSCAPE DESIGN.](#)

- 1123. Frederick Givins. Algae Powered Mushroom Farm in Congo, Africa.

2012 International Exhibitions

We are now prospecting public exhibition venues and sponsors for 2012 Algae Competition Exhibitions in museums, conference centers and universities around the world. These will be a multi-sensory experience of landscape and architecture designs on wall murals and video monitors, working models and algae food and beverages to delight the taste. Please contact us if you have recommendations, would like to participate, or would like to know more.
