New Book from the International Algae Competition:

IMAGINE OUR ALGAE FUTURE *Visionary Algae Architecture and Landscape Designs*

by Robert Henrikson and Mark Edwards

Available at Amazon.com

164 pages * full color * 8"x10" * ISBN 1475128185 * \$29.95

How will growing algae change the world and improve our lives?

Imagine our future living in cities where buildings are covered with photosynthetic skins and vertical gardens, collecting the sun's energy and producing food and energy for urban citizens.

Imagine greening desert coastlines and producing food for millions of people. Imagine algae systems that recycle polluting wastes into high value animal food, fuel and biofertilizers.

This book reviews algae production, products and potential today and showcases some of the amazing visions

of our future from the International Algae Competition. Our future with algae offers rich and diverse opportunities that will impact every aspect of our lives.

International Algae Competition is a global challenge to design our future with algae food and energy systems.

As a participatory design game, Algae Competition invited global citizens from around the world to design their

International Exhibitions

We are now prospecting public exhibition venues and sponsors for 2012 Algae Competition Exhibitions in museums, conference centers and universities around the world. These will be a multi-sensory experience of landscape and architecture designs on wall murals and video monitors, working models and algae food and beverages to delight the taste. Please contact us if you have recommendations, would like to participate, or would like to know more.
